

KYK

Alkaline Ionizer & Hydrogen Water Generator

"Global No.1"

KYK CO.,LTD.
Best Water
Greatest Of All Time

Our Vision KYK is

The world's best global company
for human health and happiness

Hydrogen water-alkaline ionized water company

KYK is a one-stop company that conducts research and development, manufacturing, and sales of hydrogen water, alkaline water ionizer, hydrogen botox, and hydrogen inhaler through long water science research since 1980

Successful clinical trials

Got IRB approval from
Bundang Seoul National University Hospital and
succeed in clinical trials.

Clinical trials on patients with
irritable bowel syndrome demonstrated
a remarkable 85.7% improvement

KYK R&D Center

KYK Science and Technology Research Center was
established in the company to
research new technologies and develop new products,
and services and technologies are recognized
with high trust from consumers.

Quality control-Medical Equipment

According to the manufacturing process of medical devices
in advanced countries, KYK strictly does quality control.

Appearance inspection, water leakage inspection,
operation inspection, and performance inspection will be
carried out, and only products that
pass 100% of the test will be shipped

Conscience and honesty

"KYK keeps its promises." We do not make or sell bad things.
We run our business with the belief that working for
human health is the most righteous, noble,
and greatest thing that humans can do. I'm doing.

C.E.O By special occasion and philosophy

"I made a brand under my name. This means that I am confident in what I do, and
that I take responsibility. I have been and will continue to do that

Dr. Kim Young-kwi

42 years of water science research for human health

- President of KYK co., Ltd
- Director of KYK R&D center
- Served as Chairman of the Water Industry Association
- Received the Presidential Medal of the Invention Steel Tower Industry
- 40 years of water science research
- Published a number of papers including "The Relationship between Water and Disease"
- Selected as a global leader in Korea
- Many interviews as media experts
- Successful clinical trial at Seoul National University Bundang Hospital

What is hydrogen water?

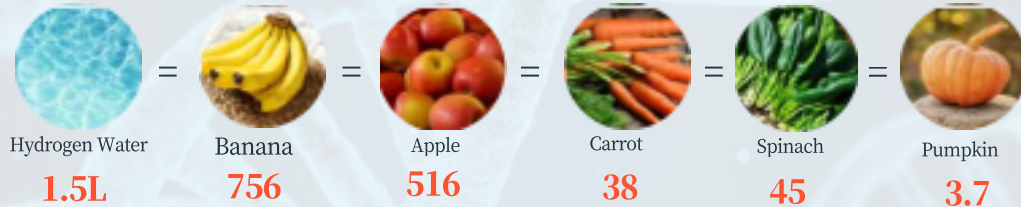

Water in which active hydrogen is dissolved is called hydrogen water.

Hydrogen content is expressed in units of PPB.

With the introduction of hydrogen's effect in global medical journal "Nature Medicine" in 2007, many experts have recognized the effects.

Effects?

1. The antioxidant effect is strong. (176 times than Vitamin C, 863 times than Coenzyme)
2. If drinking 1.5 liters of hydrogen water during a day, the antioxidant effect is same as eating 516 apples.

3. Has anti-inflammatory, anti-allergic effect
4. Has effect on improvement of blood flow.
5. Other actions include improving lipid metabolism, anti-apoptosis, and controlling signal transmission.
6. 그 외 수소의 효과에 관련된 논문이 2021년 기준 1,000여편이 있습니다.

Hydrogen generation characteristics of KYK

1. P.E.M(Polymer Electrolyte Membrane) System

High hydrogen content + PEM + BPA Free + Tritan + Patented

The hydrogen generation technology of KYK Co., Ltd. is different from competitors.

By applying the latest PEM technology, the industry's highest level of hydrogen is generated, while ozone is separated so that customers can drink hydrogen water more abundantly and safely.

Tritan material, which is also BPA(bisphenol A)-free, is used for the electrolyzer.

Also, it has a patent that stably supplies water to the anode (+), making it incomparable with competitors

2. 4 Free System

When magnesium is used to generate hydrogen water, magnesium oxide is generated that interferes with mineral absorption.

KYK produces hydrogen **without using magnesium.**

If there is a water tank (water tank), bacterial growth becomes a problem.

All KYK products do not have a water tank. 100% direct water type cleanly generates hydrogen water.

Ozone, which occurs simultaneously when generating hydrogen water through electrolysis, can cause inflammation.

All of KYK's products use pem technology to **separate and release ozone.**

Some unscrupulous companies that can't separate ozone, which has a characteristic odor, install deodorizers to remove the smell of ozone.

Since KYK has ozone separation technology, there is **no need to install a deodorizer.**

KYK **HIGEN2+** Premium Hydrogen water

From material to stability, design, and
planning, KYK has listened to the
customer's voice every process.

POINT
01

All touch type Convenience

Tap tap! Touch type

Just touch it with finger! It's so convenient.

3 in 1

Hydrogen water, sterilized water, and purified water.

Large LCD!

Filter remaining volume, water extraction stage, and flow check at a glance

POINT
02

BPA(Bisphenol-A) Free! Safe tritan material

The 99.99% platinum electrode is mounted in a **safe TRITAN material cover** from environmental hormones, so you can safely use it without worrying about environmental hormones.

HIGEN2+ electrolysis

BPA (Environmental hormone)
FREE!
Tritan material for user safety

Competitor's electrolysis

ABS(Plastic) material

POINT
03

European Integrated Standard Certification Validation of safety and effectiveness

Safety and effectiveness have been verified by a number of certifications, including GMP medical device authorization, US FDA registration, ISO13485 medical device quality management, and products recommended by the Korea Atopy Association.

ISO13485
Medical Device Certification

Design/Development, Manufacturing,
and Sales of Alkaline Ionizer and
Hydrogen Water Generator

European Integrated
Standard Certification

LVD, EMC Test! Meets
EU Council
Requirements satisfaction.

2021 New Smart Space utilization New undersink

You can watch the
product video
if you click
the image.

Hydrogen generator
& Alkaline ionizer
are both compatible.

Rigid and safe
aluminium- zinc alloy

One-touch
usage

180 degrees of rotation,
everyone's convenience.

A narrow kitchen Emphasis on the need for space utilization

- 1. Smaller house structures, narrow kitchens due to numerous kitchen appliances.
- 2. I know hydrogen water is good, there is a burden on the installation space.

A new product by KYK who understands the user's mind

Space utilization

Convenience

Effect

4.5cm is enough to install KUF

No matter how large the kitchen space is, it is disappointing!
KYK new product understands house wife's heart!
Only 4.5cm is enough to install KUF
Small kitchen, use it wide

Solid material

Do you know that most of the undersink models are made of ABS or brass?
Did you know that ABS are less durable, and brass is heavy and corroded?
KYK is light, strong and hygienic using **aluminum- zinc** alloy material.

Convenient usage

Easy-to-use touch type!
A 180-degree turn!
More convenient to use depending on installation space and usage habits.
Easy for left-handed and right-handed to use.

Product Detail Information

CE certified

High technology
PEM Tech

Point 01 Safe and sturdy design

KYK HP100 adopts a safe design based on an ergonomic design suitable for the user environment, so it can be used safely and reliably.

KYK Design and R&D dep. developed together

Point 02 Ultra-compact, ultra-light weight

KYK HP100 realized ultra-compact and ultra-light weight.

Its diameter is 70mm, weight is 76g!

It is same as foundation size and the weight of 8 coins.

Point 03 Whenever, Whoever

KYK HP100 has great compatibility!

Compatible with any type of water bottle and any type of power supply!

Compatible with computer, supplementary battery, Android, iPhone and etc!

Product Detail Information

Diameter	71mm	Height	26mm	Weight	70mm
Components	Hydrogen water generator, gender for connecting mineral water, instruction manual, citric acid for cleaning, USB cable, OTG gender(B type, C type)				
Power / Operating time	DC 5V, 0.5A / Power consumption 2.5W, 3 minutes				

KHB-88

It is VISION that KYK becomes the world's best
global company for human health and happiness.

To make the best product,
Experts and craftsmen from various fields gathered.

KHB-88, responsible for your health anytime, anywhere.
