

Introducing the range of 3M Home Water Solutions

From utility water to drinking water, purify
every drop of water that touches you.

Do you think the water you use is pure?

Did you know every drop of water, not just drinking water you use, needs to be pure? As we have progressed and improved the way we live, the environment around us has been compromised. This has forced us to fight a constant assault of toxic substances that are also now in our water, making it impure. If you have experienced any of the problems below, then your water is definitely impure.

Problems Faced

Sedimentation:

Dirt and mud accumulate in the water system of our house. While we may not notice it, it clogs our pipelines, taps and showers.

Chlorine:

Chlorine is commonly used to treat the water that we use at home. However when used in high concentration, it leaves an undesirable taste and odour. This diminishes the refreshing property of pure water.

Germs:

The water we drink, often has various water borne bacteria lurking in it. This causes diseases like diarrhea. While we try to provide our families with clean drinking water, it is difficult to assure safety.

Hardness:

The presence of minerals like Calcium and Magnesium in high percentage can cause various issues in our homes. These minerals stick to pipes and fixtures, causing white scales or lime scales that are not just ugly, but result in clogging and deterioration of pipes.

**Whole House Water
Softeners & Filters**

Take charge of your water!

At 3M, we believe in innovation to enable progress and improve lives. So, if your water is impure, we offer 3M Home Water Solutions for apartments and villas. Our wide range of solutions are designed to keep you safe from harmful effects of water throughout your house.

3M Technology

Hardness

Ion-Exchange Technology

3M Fully Automatic Water Softeners work on ion-exchange technology. High quality, long lasting resin, removes hardness causing elements giving you soft water.

Sequestering Technology

Food grade media dissolve in water and encapsulate hardness ions to make them inert. The silicates also coat pipes and fixtures to prevent internal scaling and corrosion.

Sediment

Filtering

Thicker grooved filtration medium leads to longer life and better performance. It removes all impurities bigger than 5 microns with minimal pressure drop and prevents faster choking.

Chlorine

Pre-Activated Carbon

Adsorbs like a sponge and attracts like a magnet. It uses catalysis to capture chlorine, and provide chlorine-free and odour-free water.

Hardness

Hard water affects your home and health

Water comes from a variety of sources including borewells, tanker, etc. The quality of this water is questionable and increasingly hard.

Hard water causes a lot of damage to not just your home(taps, appliances, plumbing), but also your health(hair and skin).

Harmful effects of Hardness

Skin Damage

Hard water makes your skin dry, leading to irritation

Hair Damage

Hard water leaves salts on your hair making them rough and tangly.

Scaling

Salts in hard water deposit on your fixtures and pipes, ruining the aesthetics of your kitchen and bathroom.

Clogging

Hard water causes clogging in pipes harming the effectiveness of your appliances.

Reduces Life of Appliances

Hard water causes scaling in pipes and heating elements harming the effectiveness of your appliances.

Staining

Salts in hard water deposits on the floor making them look unclean.

3M Fully Automatic Water Softeners

A one-time investment to protect you from hard water effects.

**Ion-Exchange
technology**

Programmability

**Intelligent
Auto-regeneration**

Install and Forget

With 3M Water Softeners, all you need to do is plug it in!
With the auto-regeneration feature, our water softeners
bring you maximum quality, with minimum intervention.

Complete Control

3M Water Softeners give you complete control with NSF-listed,
globally best-in-class, High Quality Control Valve(operation
based on time and flow rate along with a built-in bypass valve).

Reliable Resin

3M Water Softeners use high-efficiency and
high-performance food grade resin. A built-in strainer
prevents any resin leakage, eliminating the frequent
need to top up the resin.

Enhanced Function*

Suitable for high hardness levels of upto
2000ppm. In addition to removing hardness
causing ions, it also removes iron (up to 3ppm)
hence preventing resin fouling from heavy
metals.

*as tested in lab conditions specific to
SFT200Fe.

Product code:
SFT200,SFT200Fe

3M WTS Water Softeners

Affordable & efficient solution to all hard water problems.

Ion-Exchange
technology

Programmability

Intelligent
Auto-regeneration

State-of-the-art-Valve

Our system includes a state-of-the-art valve that allows monitoring and control of every function. The valve helps save water by regulating use and self-regenerating only when necessary.

Trouble-free Design

The superior performance brine tank, featuring a durable design, provides a virtually trouble-free operation.

Low Maintenance

Our system design helps provide long-term operation, reducing frequency of maintenance. Quality factory support and customer service is readily available.

High Performance

The 3M water softener is a high functioning, high capacity system. Our technology ensures you get the best output at the best price.

Product code:
IAWTS28L, IAWTS42L, IAWTS57L,
IAWTS85L

3M WTS Prime Water Softeners

A Wholesome water treatment system for you community.

**Ion-Exchange
technology**

Programmability

**Intelligent
Auto-regeneration**

State-of-the-art-Valve

Our system includes a state-of-the-art valve that allows monitoring and control of every function. The valve helps save water by regulating use and self-regenerating only when necessary.

Low Maintenance

Our system design helps provide long-term operation, reducing frequency of maintenance. Quality factory support and customer service is readily available.

High Performance

The 3M water softener is a high functioning, high capacity system. Our technology ensures you get the best output at the best price.

Soft Water Always

Our system enables you to enjoy 24/7 uninterrupted supply of soft water without a break time for softening.

Limitless Volumes of Soft Water

The system has no limitation on number of daily regeneration it can undergo, hence ensuring no cap on your society's daily water consumption.

Product code:
IAWTS 57T, IAWTS 85T

3M Scale Prevention Systems

Effective & inexpensive solution to hard water scaling problems.

Sequestering
technology

Depth
filtration

2-in-1 Action

Provides sediment filtration up to 5 microns and also prevents scaling by encapsulating hardness causing Calcium and Magnesium ions.

Zero Water Wastage & No Electricity Needed

Complete green building product.

Food Grade Material

Unit is manufactured from FDA CFR-21 compliant material.

Compact in Size

Can be easily dismantled and carried along.

Withstand High Pressure

Can withstand pressure up to 7 bar.

Product code:
IAS141T, IAS102T, IAS430SS

Sediments

Don't let dirty water affect you

You consume water even while brushing and bathing. Can you imagine the water being dirty and muddy. Look closely, the water you bathe with has a lot of impurities from mud and dirt to rust from pipes, and is filled with suspended particulates.

Harmful effects of Sediment

Skin Damage

Sediments in water come in contact with your skin causing irritation and dryness..

Hair Damage

Sediments in water deposit on your scalp, making your hair rough.

Clogging

Muddy water clog your fixtures and pipes, requiring frequent maintenance.

Staining

Sediments in muddy water deposit on your floor, discoloring them.

3M Whole House Filtration System

Clear water throughout the house, like it should be.

Depth
filtration

High Performance

Thick grooved filtration medium enables removal of visible and invisible sediment particles up to 5 microns.

Zero Water Wastage & No Electricity Needed

Complete green building product.

Food Grade Material

Unit is manufactured from FDA CFR-21 compliant material.

Compact in Size

Can be easily dismantled and carried along.

Withstand High Pressure

Can withstand pressure up to 7 bar.

Product code:
IAS801F, IAS802F

3M Backwash Systems

Multi-Graded

Multi-Layered

Multi-Media

Backwashing Systems

Fully automated system with flexible backwashing based on concentration of impurities.

Filters and diminishes suspended particles up to 20 microns.

Matches flow rates with 3M SFT/WTS water softener series for effortless sizing and installation.

Lowest pressure drop due to superior grade media.

Product code:
IABWS42L, IABWS57L,
IABWS85L

Chlorine

Don't struggle with bad smelling water

Are you suffering from weird smell in your water. If the smell of the water is similar to bleach then it is because of presence of chlorine in your water. Municipal water most often comes treated with chlorine which acts as a disinfectant to prevent water borne disease.

However over-chlorination can leave the water with a bad taste and odor. It can cause skin tanning and irritation in your eyes.

Harmful effects of Chlorine

Skin Damage

Chlorine damages your skin making it feel dry. It causes skin tanning along with burning sensation in eyes.

Hair Damage

Chlorine makes your hair brittle and frizzy.

Strange Odour

Chlorine leaves the water with undesirable taste and odour.

3M Chlorine Removal Systems

Zero chlorine water for fresh use.

Pre -Activated Carbon technology

NSF Certified

Tested and certified with NSF for chlorine reduction.

Zero Water Wastage & No Electricity Needed

Complete green building product.

Food Grade Material

Unit is manufactured from FDA CFR-21 compliant material.

Compact in Size

Can be easily dismantled and carried along.

Withstand High Pressure

Can withstand pressure up to 7 bar.

Product code:
IAS802C

Drinking Water System

3M Proprietary I.M.P.A.C.T Technology

(Integrated Membrane Pre-Activated Carbon Technology)

Smart Cartridge Indicator

System comes with a dedicated faucet and intelligent tracking system, providing a visual for cartridge change. Now you can change the cartridge when required, not unnecessarily.

Pre-filtration

Uses premium pleated membrane that reduces dirt, rust and particulate matter.

Fine-filtration(IMPACT)

“Integrated Membrane with Pre-Activated Carbon Technology” with patented pharmaceutical-grade membrane removes 99.99% of all water borne Bacteria, Cysts and Volatile Organic Components(VOCs).

3M Safe Kitchen

2lakh³ litres of pure water for your entire kitchen need.

99% of Bacteria Reduction¹

99.99% Bacteria Reduction¹ using I.M.P.A.C.T Technology. You get 2 lakh liters³ of Pure Water ideal to drink, cook, wash your vegetables etc.

Chlorine Removal

Pre Activated Carbon Technology removes chlorine taste and odour ensuring RECIPE QUALITY WATER retaining the taste of your food.

Retains Minerals

Retains Essential Minerals naturally.²

Minimal Maintenance

Patented Sanitary Quick Change Technique for quick and easy maintenance of cartridges.

Zero Water Wastage & No Electricity Needed

The product leaves you guilt free towards the environment by not wasting single drop of water and by not consuming any electricity.

Product code:
IAS190S

1. As tested with E Coli ATGG(112299) or psuedomonas (B) diminuta (19146).
2. For best results install the system upto a TDS of 500 ppm.
3. The capacity mentioned is only applicable for chlorine, cyst and particles (NSF Class 1) reduction.

3M Ecosip

1 lakh³ litres of pure water to last a long time- Efficiency, Effective & Affordable.

99% of Bacteria Reduction¹

99.99% Bacteria Reduction¹ using I.M.P.A.C.T Technology. You get 2 lakh liters⁴ of Pure Water ideal to drink, cook, wash your vegetables etc.

Chlorine Removal

Pre Activated Carbon Technology removes chlorine taste and odour ensuring RECIPE QUALITY WATER retaining the taste of your food.

Retains Minerals

Retains Essential Minerals naturally.²

Minimal Maintenance

Patented Sanitary Quick Change Technique for quick and easy maintenance of cartridges.

Zero Water Wastage & No Electricity Needed

The product leaves you guilt free towards the environment by not wasting single drop of water and by not consuming any electricity.

Product code:
IAS140S

1. As tested with E Coli ATGG(112299) or psuedomonas (B) diminuta (19146)
2. For best results install the system upto a TDS of 500 ppm .
3. The capacity mentioned is only applicable for chlorine, cyst and particles (NSF Class 1) reduction.

3M Smart Drinking Water System

A smart system to let you control the water you drink.

99% of Bacteria Reduction

99.99% Bacteria Reduction using I.M.P.A.C.T Technology.

Sanitary Quick Change

Patented SQC mechanism for easy cartridge change within 10 seconds.

Chlorine Removal

Pre Activated Carbon Technology removes chlorine taste and odour ensuring RECIPE QUALITY WATER retaining the taste of your food.

Retains Minerals

Retains Essential Minerals naturally.

Zero Water Wastage & No Electricity Needed

The product leaves you guilt free towards the environment by not wasting single drop of water and by not consuming any electricity.

Product code:
DWS2000T

3M EcoDrink

Make purity your way of life.

Benefits

99% of Bacteria Reduction

99.99% Bacteria Reduction using I.M.P.A.C.T Technology.

Chlorine Removal

High performance activated carbon reduces chlorine taste and odour.

Sanitary Quick Change

Patented SQC mechanism for easy cartridge change within 10 seconds.

Retains Minerals

Retains Essential Minerals naturally.

Compact Design

Undersink installation keeps your kitchen neat and clutter-free.

Product code:
IAS-1500B
